

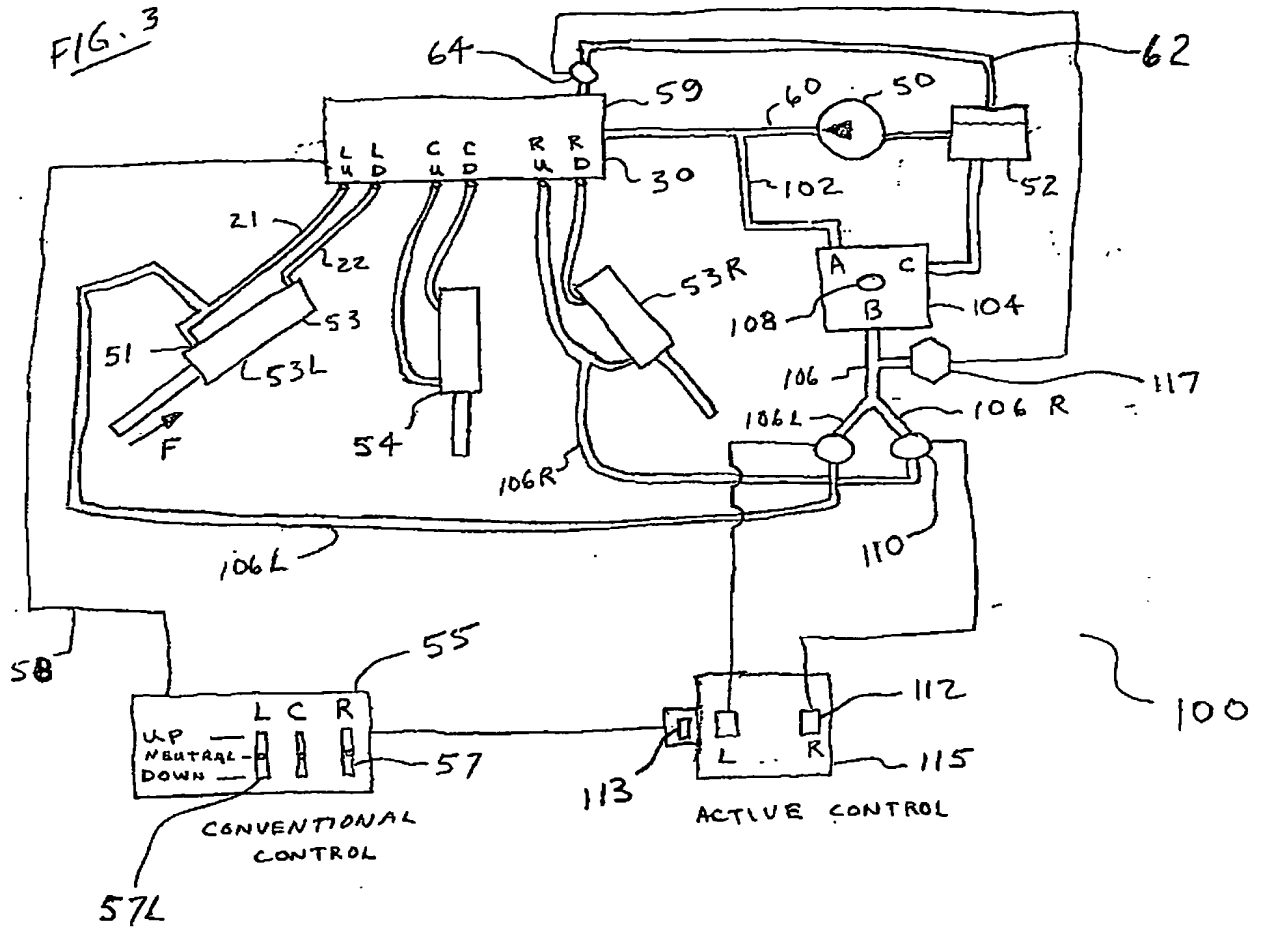

FIG. 2

Diagram illustrating a mechanical assembly, likely a component of a vehicle suspension or steering system. The assembly includes a central vertical member (22) and a horizontal member (21). A force F is applied to the horizontal member (21) at an angle. A component (20) is connected to the horizontal member (21) via a link (25). A base (15) is shown at the bottom right. A vertical support (8) is on the left. Labels FL and AP indicate specific points or features on the members.
